COMMENTS ON EXAMINER'S REASONS FOR ALLOWANCE

Applicant recognizes that in accordance with M.P.E.P. § 1302.14, the Examiner's reasons for allowance need not set forth all of the details as to why the claims are allowed. In the above-referenced application, Applicant does not concede that the Examiner's stated reasons for allowance are the only reasons for which the claims are allowable. In particular, Applicant does not concede that all of the identified limitations—i.e., “a frequency multiplier operable to multiply the divided signal by a multiplication factor, including inserting one or more additional digital pulses into the divided signal to generate a multiplied signal; and a re-sampling circuit operable to re-sample one or more of the additional digital pulses inserted into the divided signal if the multiplication factor does not divide evenly into the integer divisor”—are necessary to distinguish the prior art of record or to satisfy the requirements of 35 U.S.C. § 112. Furthermore, the claims may be patentable for other reasons. In addition, dependent claims are allowable on their own merits, and are allowable on the basis of a sub-combination of the recited features of the dependent claims and their respective base claims.

Applicant notes that a drawing amendment was submitted as part of Applicant's last response filed on March 30, 2006. Applicant has not received an indication that the amendment was acknowledged. Applicant assumes the drawing amendment was satisfactory and
